ANNUAL REPORT

OF THE

AUDITOR OF THE STATE

FOR THE

FISCAL YEAR ENDING NOVEMBER 30, 1900.

RALEIGH, N. C., January 2, 1901.

To His Excellency, DANIEL L. RUSSELL,
Governor of North Carolina.

SIR:—To comply with law, I have the honor to transmit herewith the annual report of this Department, concerning the finances of the State for the fiscal year ending November 30, 1900.

The Auditor's ledger shows the balance of the General Fund in the hands of the State Treasurer to be $68,768.74. The balance of the Educational Fund is $23,219.50. The total balance is, therefore, $91,988.24.

For the purpose of reference and convenience, a statement similar to one made in the preceding report is again offered here, inasmuch as certain conditions existing when the last report was made are much the same now.

The above balance, while appearing from the Auditor's ledger, does not show the amount of actual cash in the hands of the State Treasurer at the close of the fiscal year. It represents the difference between the aggregate amount paid into the Public Treasury from various sources and the aggregate amount of warrants issued against the Public Treasury by this Department for the year. Such warrants as may have been issued and not paid by the State Treasurer during the year are chargeable to the Treasurer as so much cash as may be represented by them. The aggregate amount of such outstanding warrants is $32,570.85, and may be referred to as follows:

Warrants issued prior to the close of the fiscal year ending November 30, 1896, $5.76.

Warrants issued in December, 1896, for claims in bills of cost against the State in the Pamlico and Carteret county oyster cases, Nos. 11,678 and 11,818, amounting to $5,611.15.

Warrants issued on account of expenses incurred in mobilizing United States Volunteers for Spanish-American war, $6,646.33.

Warrants to be cancelled in favor of issue of new warrants under head of "State Guard, Special," on account of Spanish-American war, $16,009.09.

Sundry general warrants issued in 1900 and in transit, $4,298.52.

The aggregate amount of outstanding warrants added to the balance, as shown by the Auditor's ledger, shows the actual cash balance in the hands of the State Treasurer to be $124,559.19.

TAXABLE SUBJECTS AND VALUES.

The assessed tax values of real and personal property as shown in this report are based on the returns made by the various counties for the year 1899, which, under the provisions of section 2 of the Machinery Act, was the quadrennial assessment year, or a year for a general revision of taxable values by a Board of Assessors appointed for each county.

The revenues shown from unlisted taxables, under Schedules "B" and "C" of the Revenue Act, are also based on reports submitted to this Department for the year 1899. The tax values of railroad, telegraph, telephone, steamboat, canal and express company properties are based on standing and revised assessments made by the North Carolina Corporation Commission for the fiscal year of 1900.

The aggregate assessed value of all property listed for taxation for the year 1899 is $287,339,288.25. The tax value of similar property for the year 1898 was $269,302,388.42. Therefore the increase of taxable values for the quadrennial assessment year of 1899 over the year 1898 is $18,036,899.77, a showing which may be considered by all good citizens of the State as gratifying and encouraging.

The sources of this increase are as follows:

Real and personal property, increase, . .		$17,938,366.00
Telegraph and telephone property, increase, .		47,643.17
Southern Express Company property (1st report),		117,370.09
Total increase, ...		$18,103,379.26
Railroad property, decrease, . .	$20,917.71	
Steamboat and canal property, decrease,	45,561.78	
Total decrease, ...		66,479.49
Net increase, ...		$18,036,899.77

A condensed comparison of the reports for 1899 and 1900 may be stated as follows:

1900. Value of real and personal property, . . .	$252,891,735.00	
1899. Value of real and personal property, . . .	234,953,369.00	
Increase over 1899, ...		$17,938,366.00
1900. Value of telegraph and telephone property, .	734,123.00	
1899. Value of telegraph and telephone property, .	686,479.83	
Increase over 1899, ...		47,643.17
1900. Southern Express Company (1st report), ...		117,370.09
Total increase, ...		$18,103,379.26
1899. Value railroad, steamboat and canal property, .	33,662,539.65	
1900. Value railroad, steamboat and canal property, .	33,596,060.16	
Decrease from 1899, ...		66,479.49
Net increase of all property over 1899, .		$18,036,899.77

The figures so far presented constitute the aggregate values as shown by the first or original listing of property values, and are subject to such modification as is here explained. The report for 1899, as based on original returns, indicated an increase in the value of real and personal property over the preceding year (1898) of $2,706,040, but as was pointed out, the Boards of County Commissioners of the various counties, acting under section 25 of the Machinery Act, granted to sheriffs and tax collectors rebates and releases aggregating the sum of $8,078.95. This procedure was, in actual effect, the releasing of $3,480,848 of taxable values originally reported. It is thus seen that there was an actual decrease of $774,808 in the values on which taxes were collected.

The returns on which this report is based show the aggregate amount of rebates and releases granted by the Boards of County Commissioners of various counties to be $7,781.75, which is equivalent to releasing from taxation $3,377,600 worth of property originally listed. For the purpose of making approximately accurate estimates, it is clear that the released values should be deducted from the original values, and such deduction shows the net amount of property, on which taxes were collected for the year 1900, to be $283,951,688.25. It may be observed that the reports show that 26,336 polls that were listed as taxable were released for various causes.

There appears to be a slight decrease in the value of railroad property under assessments now in force as compared to last year; also a decrease in the value of steamboat and canal property. There is an increase in the value of telegraph and telephone property. The first report of the assessment of express companies, as made by the Corporation Commission under the Revenue Act of 1899, appears herein. Another feature introduced for the first time is the number of Indian polls in the State, together with the value of property owned by Indian citizens.

COMPARATIVE OBSERVATIONS.

The receipts of the Public Fund for the fiscal year ending November 30th were $1,618,103.91, an increase of $72,386.22 over the year 1899.

The disbursements for the year were $1,646,384.68, an increase of expenditures over the year 1899 of $51,618.92.

The aggregate sums above named must be subjected to some analysis or explanation in order to be understood in detail. To arrive at the legitimate receipts of the Public Fund there must be deducted from the aggregate such sums as are not derived from taxes for general State purposes. These amounts may be stated as follows:

Appropriation of Public Schools (refunded) . .	$ 615.19
North Carolina Railroad dividends, . . .	195,013.00
Special tax to pay pensions, ...	114,165.30
Sale of State bonds (investment)	144,800.00
State Prison earnings, ...	195,432.02
Tonnage tax on fertilizers, ...	55,180.94
U. S. Government appropriations, A. and M. Colleges,	40,000.00
Total, ...	$ 745,206.45

If the aggregate amount of the sums above specified ($745,206.45) be deducted from the total receipts of the Public Fund ($1,618,-103.91) it will be seen that the legitimate revenue of the State from taxes for general purposes is $872,897.46.

Concerning the disbursements of the Public Fund a procedure similar to that observed in connection with the receipts must be had. Such expenditures as are made from revenues not derived directly from taxes should be deducted from the total, so that the legitimate expense of the State may be ascertained. These sums may be stated as follows:

Agricultural Department (tonnage tax), . .	$ 55,180.94
Interest on six per cent. State debt, . . .	169,890.00
Pensions, ...	118,275.50
State Prison earnings, ...	195,432.02
State Prison farms (purchase of), ...	62,499.18
U. S. Government appropriations, . . .	40,000.00
Total, ...	$ 641,277.64

If the aggregate of the sums above specified ($641,277.64) be

deducted from the total disbursements of the Public Fund ($1,646,-384.68) it will be seen that the legitimate expenditures of the State for the fiscal year amount to $1,005,107.04.

It has been shown above that the legitimate revenue from taxes for general State purposes for the year 1900 is $872,897.46. The legitimate disbursements aggregate $1,005,107.04. It is, therefore, clear that for the fiscal year just ended the actual legitimate expenses of the State have been $132,209.58 more than the actual legitimate receipts.

An analysis of the receipts and disbursements for the year 1899, similar to the above, will show that the legitimate expenditures exceeded the legitimate receipts for that year by $159,026.55. It thus appears that the financial operations of the State for 1899 and 1900 have involved an expenditure of $291,236.13 more than the receipts for those years. The balance on hand at the beginning of the fiscal year 1899, and the sale of $136,250 of North Carolina four per cent. bonds, which were held by the State as an investment, have enabled the State Treasurer to meet the excess of expenditures above stated. The amount realized from the sale of investment bonds was $144,800.

ESTIMATED RECEIPTS FOR 1901.

The reports made by the various counties to this Department for 1900 present the taxable values from which revenue will be derived for 1901. It has already been shown that the total net value of property on which taxes were collected for 1900 was $283,951,688.25. Reports from ninety-one counties indicate that there is an increase of $8,000,000 in the value of real and personal property. Any increase in the assessed value of railroad and telegraph property for 1901 is at this time problematical, and for purposes of basing an estimate, such property may be stated at its present value.

Revenue from subjects on which a tax is imposed by Schedules "B" and "C" of the Revenue Act, known as license or privilege tax, including income tax, amounts to $135,375.26 for the year 1900; an increase of $17,359.47 over the year 1899. The increase is partially accounted for by the introduction of new subjects for

taxation into the Revenue Act by the General Assembly of 1899. Such new subjects comprise bicycle dealers, real estate agents, meat dealers, coal and wood dealers, cotton compresses, cotton factors, feather renovators, photographers, ice manufacturers, laundrymen, lumber dealers and undertakers. The revenue reported for the first time from these subjects is $8,119.83. The balance of the increase above stated (the balance being $9,239.64) represents an increase of revenue from the various subjects specifically mentioned in Statement 2 of Part II of this report.

It cannot be reasonably expected that there will be any material increase in the revenues from Schedules "B" and "C," as these schedules now stand, for the year 1901. In fact, reports from fifty-one counties, which are available for comparison, indicate a decrease of $8,000 from these sources, and if reports yet to be received may be judged by those in hand, it may be estimated that there will be a decrease from $12,000 to $15,000. Taking into consideration the facts above presented, a general summary of the sources of revenue and the probable net amount from each source for the fiscal year ending November 30, 1901, may be stated as follows:

Alexander County Bonds,	$ 1,000.00
Atlantic & North Carolina Railroad dividends,	25,000.00
Banks, license tax on,	6,000.00
Bank stock, tax on,	12,000.00
Building and loan associations,	1,200.00
Corporation tax,	4,000.00
Express companies,	2,000.00
Fees from various State departments,	8,000.00
Insurance companies, license tax,	26,000.00
Insurance companies, 2 per cent. on gross receipts,	56,000.00
Public taxes, per sheriffs and tax collectors,	644,000.00
Railroad, telegraph, steamboat and canal property,	78,500.00
Seal tax from various State departments,	1,200.00
Sewing machine companies, license tax,	4,000.00
Other sources,	12,000.00
Total,	$ 880,900.00

In the above estimate an effort is made to determine the legitimate net revenue of the State for general purposes, and the estimate is based on the taxable values and subjects already referred to, at the rate of twenty-one and two-third cents on the hundred dollars, which is the existing rate of taxation. No account is taken here of the special tax of three and one-third cents to pay pensions. That fund is specifically and separately mentioned in this report.

ESTIMATED EXPENDITURES FOR 1901.

In making an estimate of necessary expenditures for the year 1901, it is obviously permissible to base such estimate on the operations of the past two years, and by adopting such a procedure the probable necessary disbursements for the current year may be stated as follows:

Agricultural Societies,	$ 2,500.00
Appropriation for disabled soldiers,	8,000.00
Appropriation to public schools,	100,000.00
Capitol square,	600.00
Contingencies, fuel, lights, stationery, paper, laborers, etc.,	44,850.00
Convict account and fugitives from justice,	7,000.00
Executive and State departments,	44,000.00
Fayetteville Light Infantry,	150.00
General Assembly,	70,000.00
Guilford Battle Ground,	500.00
Interest on State debt, 4 per cent.,	142,000.00
Judiciary,	65,000.00
Legal services and expenses,	10,000.00
Normal schools (colored),	16,000.00
N. C. College A. & M. Arts,	15,000.00
N. C. A. & M. College,	7,500.00
N. C. Board of Health,	2,000.00
N. C. School for Deaf and Dumb (Morganton),	40,000.00
N. C. Institution for Deaf, Dumb and the Blind, (Raleigh),	67,500.00
N. C. Soldiers' Home,	10,000.00

N. C. Fire Associations,	$ 2,500.00
Oxford Orphan Asylum (white),	10,000.00
Oxford Orphan Asylum (colored),	5,000.00
Public Printing,	25,000.00
Settling State taxes (expenses of sheriffs)	1,000.00
State Geological Survey,	10,000.00
State Guard,	16,000.00
State Hospital (Goldsboro),	45,000.00
State Hospital (Morganton)	100,000.00
State Hospital (Raleigh),	55,000.00
State Normal and Industrial College,	25,000.00
State Prison (ministerial services),	550.00
University of North Carolina,	25,000.00
Various Boards, including Board of Internal Improvements, Board of Public Charities, Bureau of Immigration, Crop Pest Commission, Legislative Examining Committee, etc.,	2,500.00
Total,	$ 975,150.00

As in the calculation for revenue, an effort is made, in estimating expenditures, to arrive at the probable legitimate disbursements for the year 1901 under existing laws, which provide both specific and contingent appropriations. The item of $10,000 for legal services and expenses is introduced, because it is reasonable to suppose that certain litigation in which the State is involved will be continued for some time, and that the amount named will be required for its continuance. The estimate does not take into consideration the necessity of an appropriation for the State Prison, it having been stated to this Department by an official of that institution that there would be no necessity for one. The figures presented in the foregoing schedules of probable receipts and disbursements, based on existing laws and rate of taxation, make it appear that for 1901 the expenditures of the State would be $94,250 more than the receipts.

PENSIONS.

The number of pensioners dropped from the pension roll during the year for various causes is 385. The number of pensioners

enrolled under the general pension law is 565, making a net increase of 180. The pension fund distributed in 1899 had the advantage of a balance of $2,400, and a legislative gift of $5,000 from the account of the Accumulated Land Grant Fund. The fund was slightly overdrawn for that year, so that its distribution might be made on a basis of $16 for each fourth-class pensioner. The absence of any addition to that fund from outside sources for 1900, together with an increase of pensioners, necessitated a distribution of it on a basis of $14.50 for each fourth-class pensioner.

Chapter 619 of the Laws of 1899 provides that all ex-Confederate soldiers who have become totally blind since the war shall have the benefit of an annual appropriation of $120 each. This provision formerly extended to only such soldiers as lost their sight, or were totally disabled while in actual service, and the number of beneficiaries was 34. Under the extension act above named the number of beneficiaries has increased to 57, involving an annual average appropriation on this account of $6,840. This item is not, technically, a part of the general pension fund, but is of the same character, and is mentioned here for the purpose of showing the aggregate amount disbursed by the State to its ex-soldiers.

The pension roll for 1900 shows the total number of pensioners, special and general, to be 6,129. They are classified as follows:

1st class,	111	$ 58.00 each,	$ 6,438.00
2d class,	358	43.50 "	15,573.00
3d class,	619	29.00 "	17,951.00
4th class,	2,326	14.50 "	33,727.00
Widows,	2,658	14.50 "	38,541.00
	6,072		$112,230.00
Special,	57	120.00 "	6,840.00
Total,	6,129		$119,070.00

The total amount distributed by the State on account of pensions since 1876 is $1,336,546.76.

STATE GUARD, "SPECIAL."

Disbursements on account of State Guard, "Special," for the

fiscal year appear to be insignificant in amount, as compared with the apparent expenditures for the two preceding years. This is because there has been no adjustment of any claim or warrant issued on account of the Spanish-American war since the last report made by this Department. That account is in the same condition as it was at the close of the fiscal year 1899. It is minutely explained in the report for that year, to which reference may be made for any information concerning it.

For the fourth successive year I have the pleasure of acknowledging to you obligations for advice of practical and intrinsic value in connection with the duties of this office, and of thanking you for never-failing consideration and courtesy. I have also to acknowledge the careful work and efficiency of the clerical members of the Department, and I declare, unreservedly, that no office or official of the State was ever favored with a more obliging and competent force. The public records and files under the supervision of Mr. R. C. Rivers, Chief Clerk, are models of neatness, system and accuracy. The painstaking care and work of Mr. Chalmers Sims, Assistant Clerk, have been gratifying and are particularly appreciated; and the especial thanks of the Department are accorded Mrs. Fannie Smith, the accomplished and efficient stenographer.

Very respectfully,

Hal. W. Ayer,
Auditor.
